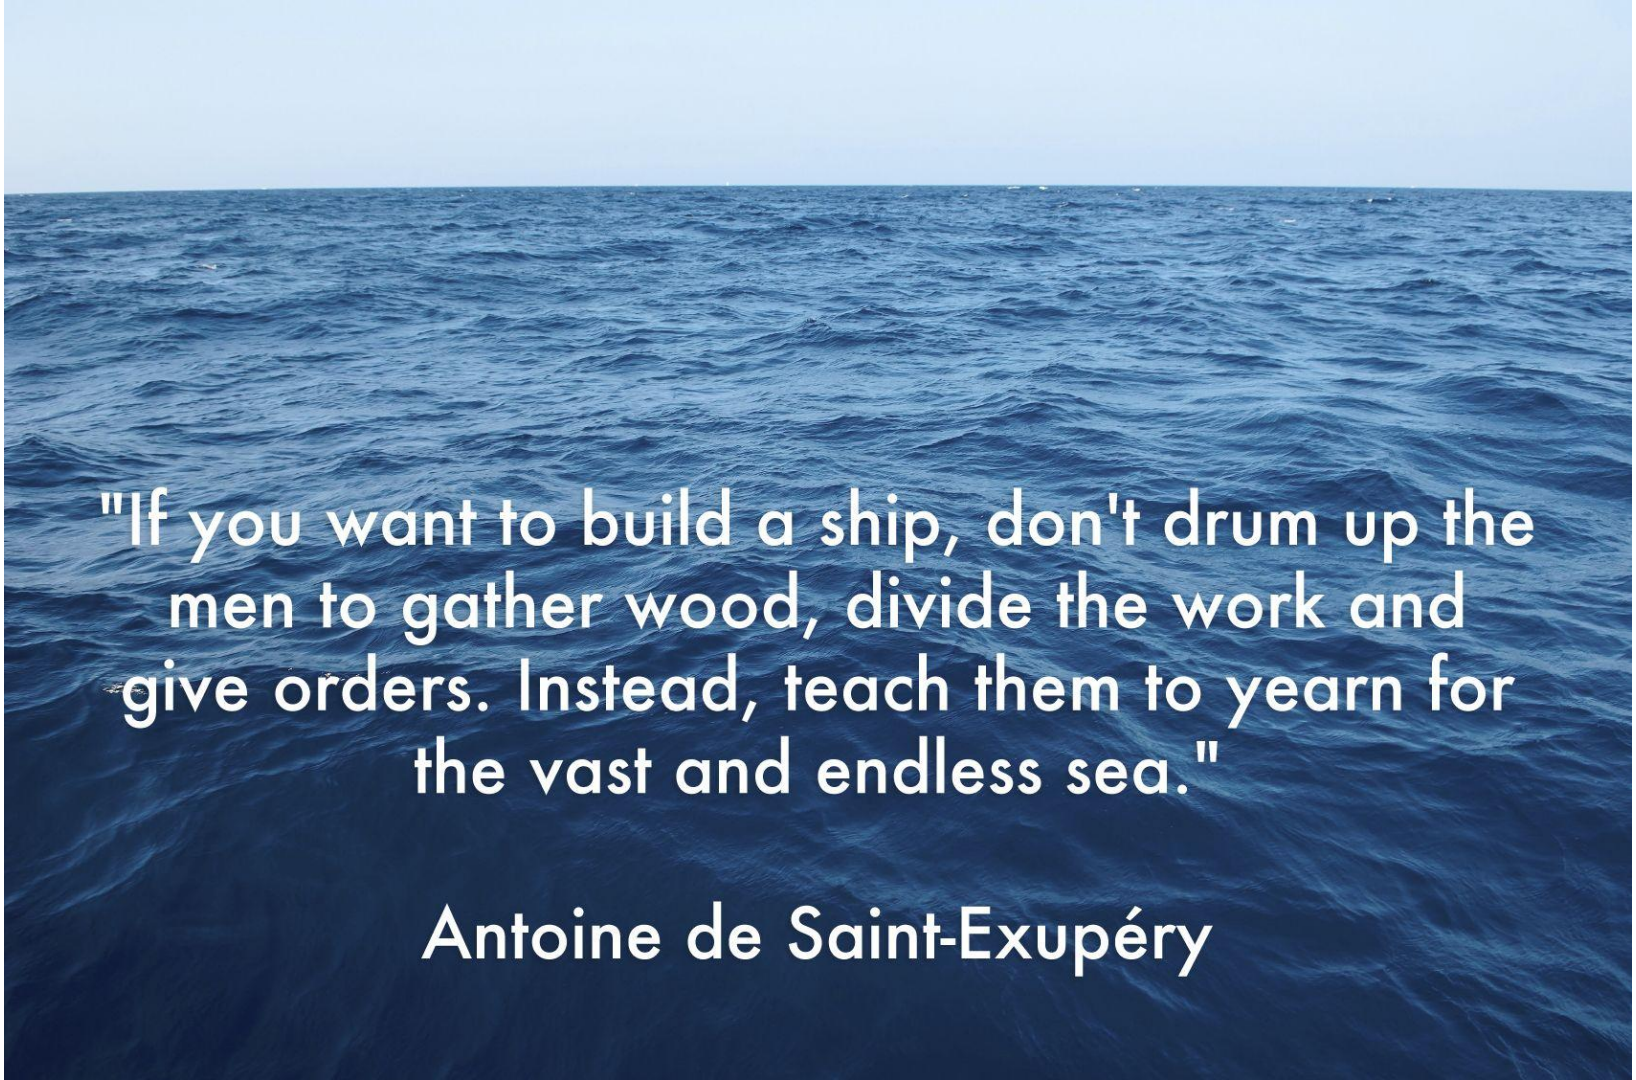
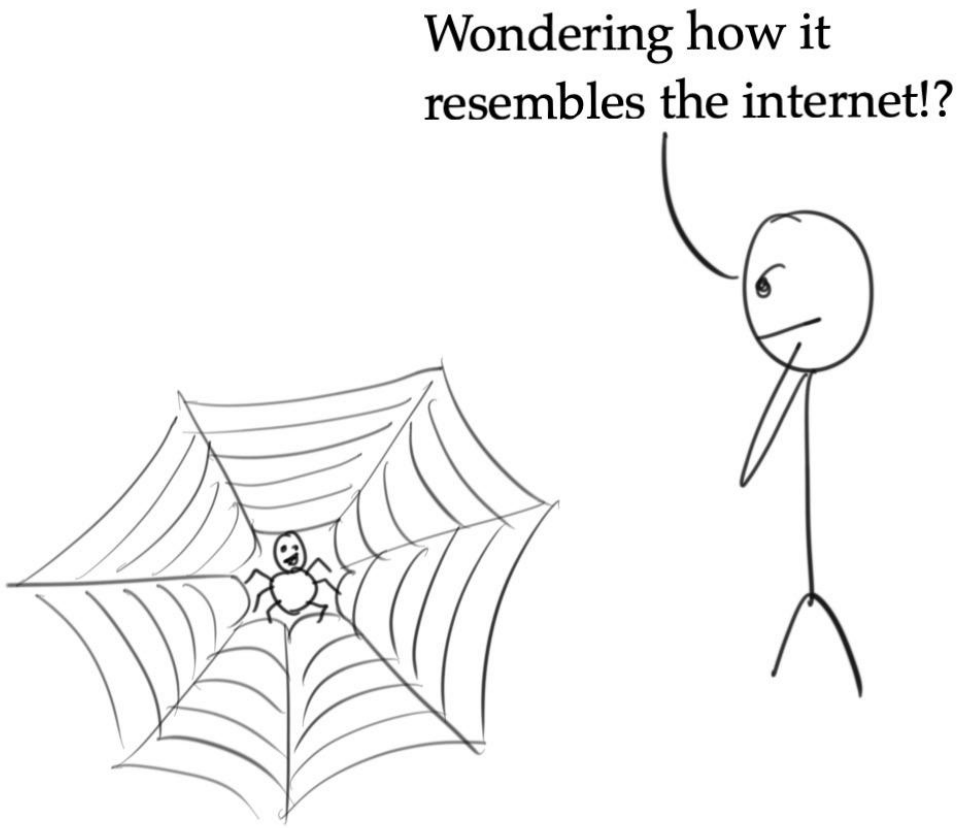
So let’s get started…



"If you want to build a ship, don't drum up the men to gather wood, divide the work and give orders. Instead, teach them to yearn for the vast and endless sea."
Antoine de Saint-Exupéry



Wondering how it
resembles the internet!?
not-exactly-world-wide web

The project is based on the philosophy that much academic information should be freely available to anyone. It aims to allow information sharing within internationally dispersed teams, and the dissemination of information by support groups

Tim Berners-Lee

Church of Web
HTML
CSS
Javascript

```html
<!DOCTYPE html>
<html>
  <head>
    <title>This is a title</title>
  </head>
  <body>
    <p>Hello world!</p>
  </body>
</html>
```

HTML

- HyperText Markup Language (text with hyperlinks)
- Provide structure to data
- Nothing to do with visual stuff
- Easiest to learn

CSS

- Cascading Style Sheets
- Used for styling HTML and other Markup
- Doesn't mean much on its own
- Declarative

```
<style>

  body {
    background-color: blue;
  }
  p {
    text-align: center;
    color: red;
  }

</style>
```

Javascript

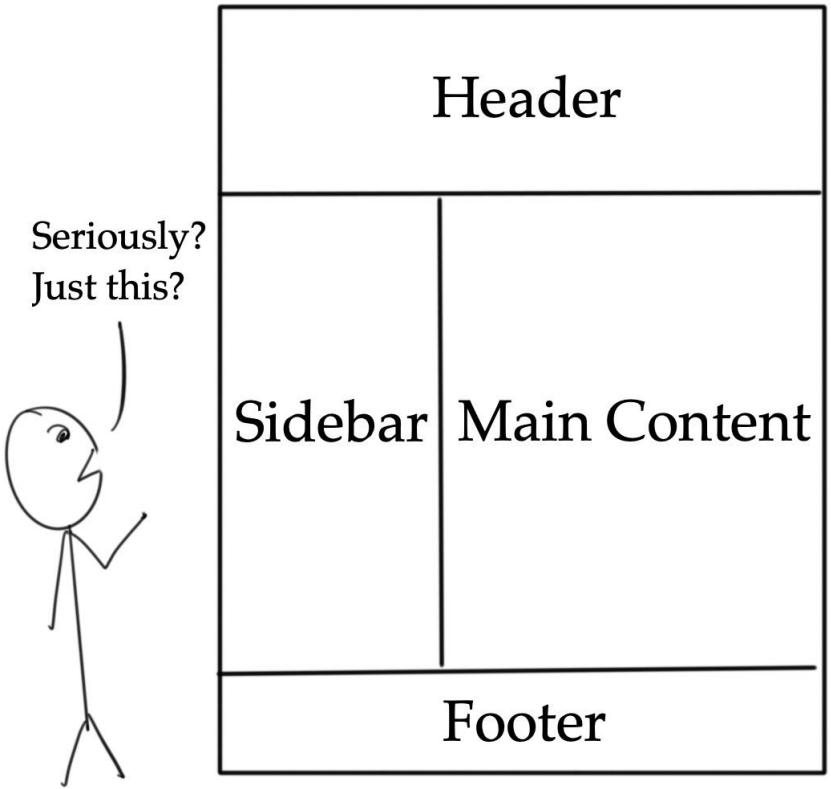
- General purpose programming language
- Frontend + Backend
- Huge community

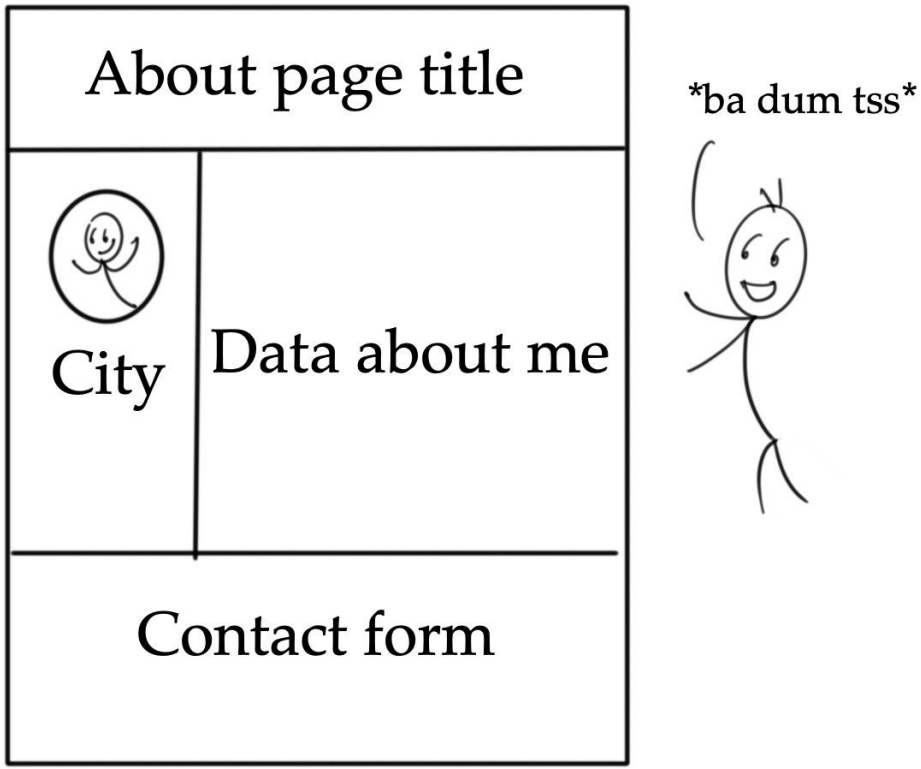
```
<script>

  let a = 10;
  let b = 20;
  let sum = a + b; // sum is now 30
  sum = sum / 10; // sum is now 3
  let name = "John Doe";
  // prints 'John Doe' to console
  console.log(name);

</script>
```

Holy Grail Layout





ba dum tss

Gotta catch 'em all!

Pallet Town

Name:

Ash Ketchum

Age:

17

Experience:

- 3 gym badges
- Lead character in a popular anime

Hobbies:

- Pokemon battles
- Pokemon hunting
- Eating

References:

- Misty
- Brock
- Professor Oak
